- Assist in project implementation
- Get familiar with vessel maintenance
- Support superintendents for services and repair requirements and ensure follow-up, planning and execution
- Ensure vessel certificates are maintained up-to-date
- Maintain vessel archives and observe necessary backup routines
- Follow performance statistics and propose appropriate actions to improve as required
- Attend vessels when necessary and as directed by Fleet Manager
- Follow-up defect reports, guarantee claims
- Assist superintendents and drydock manager before, during and after drydock
- Create purchase orders as required
- Attend to disputed invoices
- Assist fleet with data collection and analysis
- Broadcast vessel general information and fleet changes to relevant departments
- Participate in crew briefings and trainings in fleet related topics

Your profile and qualifications:

- Engineer graduate or similar
- Experience in the shipping industry and at least one year in a ship management role ashore
- Adequate qualifications in line with industry standard
- Computer literate
- Willingness to be flexible and act on changing priorities

- Fluent in English
- Effective verbal, written and presentations skills
- Ability to work independently and in a team-based environment
- Strong multi-tasking and organizational skills
- Willingness to conduct research into project-related matters

Our client offers

- An interesting role with a high level of independency and responsibility
- A lean organization with quick decision making processes
- A professional and friendly team
- A structured onboarding and training process
- A modern working environment in the center of Hamburg
- A competitive and performance related salary as well as benefits
