CONSULTING

Technical Fleet Superintendent (m/f/d) with Container experience Shipping Company, Hamburg

Our client is an international liner shipping company with an ambitious fleet expansion strategy for their Hamburg branch. The company offers technical ship management services for the group's container fleet.

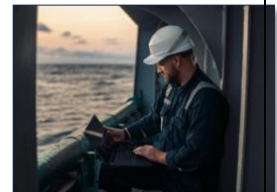

To cater for the fleet expansion and to strengthen the technical department in Hamburg we are seeking a Technical Fleet Superintendent who meets the company's values and matches the following profile:

Your responsibilities:

- Represent the ship-owner on board of the vessels and in ports
- Report to the Fleet Manager
- Handle specific situations through appropriate actions to optimize the management of the vessel
- Ensuring the operational monitoring of container ships of your area
- For each vessel, you will initiate investigations, determine the purchases and repairs to be carried out to comply with shipping technical norms, expiry dates and the company's standards. After the approval of your managers, you will implement them
- During technical interventions, you will supervise and coordinate crew members and external participants (repair yards, shipping experts, classifications Companies, etc.)
- Challenge root cause analysis of defects raised by 3rd parties and import feedbacks in owned fleet
- You will be the key contact of chief engineers, captains, lines and shipyards. In addition, you will draw up and monitor operational budgets allocated to each vessel
- Appointed ships expert & representative onsite if required
- Update all shipping documents and official certificates that are necessary for the vessel, control their consumptions (oil, fuel, etc.) and participate in their optimization
- In sum, you will ensure the good conditions of the vessels' seaworthiness and their business performance (certificates, international obligations, speed, capacity, lifting gear, etc.)

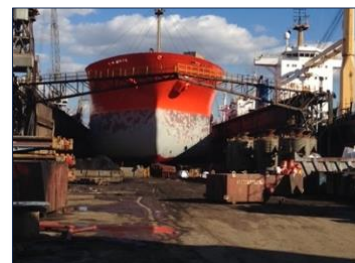

Your profile and qualifications:

- You have a chief/second engineer license, or a degree in naval engineering
- 5-year experience at least as a seafarer and/or in a similar position.
- You are very fluent in spoken and written English and proficient with office and IT tools.
- You have a good knowledge of international shipping regulations. Expert knowledge in a technical field (hull, engines, etc.) will be appreciated.
- Your rigour, responsiveness, and capacity for analysis and synthesis, combined with interpersonal skills, will enable you to succeed in your missions
The position involves frequent business trip (about 45 days/year).

Our client offers:

- An interesting role with a high level of independency and responsibility
- A lean organization with quick decision making processes
- A professional and friendly team
- A structured onboarding and training process
- A modern working environment in the center of Hamburg
- A competitive and performance related salary as well as benefits

How to apply:

Please submit your electronic application together with a CV and supporting documents to Imrecke Consulting GmbH to following email address: info@imrecke-consulting.de
